The infographic is divided into three main sections. The top section, 'UNDERSTANDING STAMINA-POINTS', features a pink banner and explains that STAMINA-POINTS (represented by a bar chart) decrease when evading or performing moves. It includes a '0 SP' gauge and a cartoon fox character. The middle section, 'MOMENT OF SAFETY', shows a blue box with a timeline of 'INVULNERABILITY' and a 'Check for Dust!' callout. The bottom section, 'STABILITY', features a purple gauge and explains that taking hits leads to 'flinch!' or being 'knocked over', with a 'STABILITY' gauge that is 25% of total HP.

UNDERSTANDING STAMINA-POINTS

STAMINA-POINTS represent your poise and strength to perform certain actions. When you evade or perform other moves, your STAMINA-POINTS go down. When at 0 SP, you can still do many actions, but at a disadvantage.

MOMENT OF SAFETY: At the start of evasion you have invulnerability briefly, so evade at just the right moment!

STABILITY: Take enough hits and you will flinch! If a hit is really big, you can even be knocked over. The hidden STABILITY gauge is 25% of your total HP.
