Translation

The Ruin Seeker begins to understand the HOLY CROSS

Elaboration

The Holy Cross is the D-pad on the player's controller, or the arrows keys on the player's keyboard. The player should practice and successfully perform the Holy Cross upon the set of doors to the north of the Overworld's fountain, the set of doors to the west of the entrance to the West Garden, and the set of doors to the north of the Overworld's pathway to the Swamp.
