Elaboration

The upper-left pen sketch is the solution to the Overworld's southern flower Holy Cross puzzle. The original owner of the manual messed up their first sketch and scribbled it out before drawing it again.

The upper-right pen sketch is of the fox, which happens to also appear in a secret spectrogram.

The lower-right pen sketch is the solution to the Overworld's invisible maze puzzle.

The lower-left pen sketch associates the Trunic characters for compass directions with the Trunic characters for up, left, right, and down.

The lower-left artwork is a Holy Cross code for a free heal.
