What has been found

Page 54 "For Additional Support & Secrets" it states the following.

1. Find some rare golden statues.
2. Traverse the glow to visit 12 strange beings
3. "Un-sing" to them the greatest song, the song of the golden path, as seen from within.

To explain what step three of this secret is wanting.

- The greatest song is referring to the "Golden Path" otherwise known as the input used on your keyboard or d-pad to open The Door in the Mountains.
 - **Shorthand:**
uldluldrurulurdrululuruldluruulurdrdrurldrurdrurdrurdrldlddrdrldldrldrurdrurddlur
uldlululurrulu

- As seen from within states to look at the golden path from the other side of the page i.e. flip the paper.

- Finally, "un-sing" requests the code be inputted from the center out rather than the bottom in resulting in.
 - Shorthand:**
 dldrrdldldldurdrulurullururulurrdrurdrurdrulurdrurdrlddrdldldrldldrurldldr
 dluldlul

When inputted at the Glyph Tower, the runes present the following link.

When the audio from the <https://doyoufeartheeyesofthefarshore.co/a.mp3> is viewed through a spectrogram, it presents the following in the 10Hz to 500Hz range:

When translated, this states: "we are the(e) eyes of the far shore".

The next mystery may lie within the chords of the audio (the black lines below) (10Hz - 240Hz), but not much is known past this.

NOTE - Much of this discussion has moved to [this spreadsheet](#) to translate the chords above!
